

Naturals

A natural setting for native stone.

Expect more from your floor.

These are not your traditional hardscapes. Silikal Naturals offer the classic look of rustic terrazzo in an altogether new setting. Silikal's reactive resin floor technology provides an outdoor surfer that will withstand the effects of local climate change and maintain its natural beauty and integrity through sun, rain, sleet or snow.

Silikal Naturals lend native elegance to foyers, courtyards, patios or pool decks and provide designed durability for highly trafficked ramps, walkways and driveways. The naturally textured, sealed stonescape is easy to maintain and will maintain its naturally designed slip resistance for years to come. Silikal Naturals, the natural outdoor surfer.
